

# ONSITE TRAINING

## Upscaling of testing results from material to component level

iCLIMABUILT

An open innovation test bed  
for building envelope materials

**Venue:**  
Energy Center - Auditorium  
Politecnico di Torino, Italy

**Date:**  
Wed 16 Oct 2024

**Time:**  
14:30 – 17:30

**JOIN US online or on-site (limit 40 seats)**

[Registration Link](#)

### TOPICS:

- Heat Harvesting Ventilation Smart Window
- Building Integrated Photovoltaics with functional coatings (the MorphoColor® technology for colour and anti-soiling coatings)
- Load-bearing and insulation lightweight sandwich panel, made entirely of concrete
- Autonomous in-situ condition monitoring of smart building envelopes using thermal energy harvesting
